It was our honor to have Dr. Chan Tat as the speaker for this public talk. This public talk had drawn great attention of the general public regarding the aspects of Nocturia. In the lecture section, Dr Chan explained the definition and prevalence of Nocturia in Hong Kong, impacts of Nocturia on daily life, diagnosis and treatment of Nocturia in a lively way. In the Q&A session, audience was keen to raise questions about urological problems. Dr. Chan answered the questions patiently and participants enjoyed this talk which gives them a deeper understanding of Nocturia.
